Adventure XLVIII – The Valley of Fear

What goes on in the mines is just bad.
Bodymaster's a thorough-going cad.
 There are crimes from a gang,
 Then a double-barreled "bang"
In England brings an end that is sad.

Sandy Kozinn

The story comes from violence in mining American coal
Holmes goes to Sussex and solving a murder was his goal
 Of course, in the States there was Pinkerton and his crew
 And an undercover agent that nobody really knew
Who ended up in England, hiding in a hole

Karen Olson

Birdy Edwards was just the right man,
To destroy Boss McGinty's whole clan,
 And then as a ruse,
 He took a long cruise,
But 'twas overboard that he did land.

Bill Dorn

Something strange with the Wife's attitude
Missing dumb-bell a great magnitude
 Fake clue the bike did bring
 Real clue the wedding ring
Bloody footprint led to fortitude
